

Comfort

The ErgoPerfect Comfort Chair is a high-end ergonomic chair for a variety of working situations. Numerous adjustments are possible through a variety of simple manual operations. The bubble upholstery profile is molded in soft polyurethane to stimulate blood circulation and increases comfort when sitting for long periods of time. The chair is an ideal seating solution for office and production use.

Product Detail

Black-painted steel seat mechanism allows manual adjustments of back rest height, back rest tilt with permanent contact, seat angle and reclining/lockable tilt action via levers.

Seat height adjustment by means of a safety gas cylinder lift.
