

ERGOMAT®

Ergonomic Matting VS. Insoles

Cushioned Insoles are NO MATCH for Ergonomic & Anti-Fatigue Floor Matting

MATTING

VS.

INSOLES

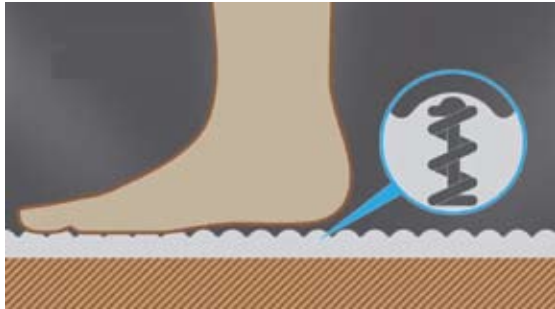

Ergomat supplies proven ergonomic & anti-fatigue matting.

Insoles are simply cushion with no proven ergonomic properties

MATTING ERGONOMIC FEATURES

Ergomat matting acts like a shock absorber - taking the shock off your joints and lower extremities, and stimulating circulation to reduce fatigue

INSOLE ERGONOMIC DEFICIENCIES

Memory foam insoles do not rebound when compressed, providing no shock absorption, leaving your joints and body to do all the work

MATTING COST & WARRANTY

126.00 per work cell mat
shared by
3 workers for
3 shifts

8-Year Warranty

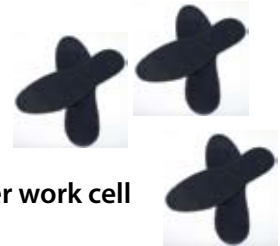

\$ 15.75 per worker
position **PER YEAR!**

INSOLE COST & WARRANTY

ERGOMAT®

Ergonomic Matting VS. Insoles

Cushioned Insoles are NO MATCH for Ergonomic & Anti-Fatigue Floor Matting

MATTING

VS.

INSOLES

MATTING PROCUREMENT

1 mat for 3 shifts purchased every 8 years

INSOLE PROCUREMENT

Multiple sizes necessary in stock per employee with 4 purchase cycles per year!

MATTING SAFETY

VS.

INSOLE PROBLEMS

Mats are proven to provide ergonomic benefits to employees.

Wear on matting is highly visible and easy to repair.

Matting provides superior visual safety.

With insoles, employers have no visual way to prove they are in use.

Insoles make it nearly impossible for employers to gauge their condition & wear.

Insoles create greater employee safety liabilities for the employer
